Jesus Is With Us Again

(Easter season, particularly Easter 5, Lectionary Year A)

Choirs may perform this arrangement in various ways:-

(a) As written, maybe using the setting of Verse 2 for Verse 1 as well. The given introduction will lead in to this, also.
(b) Minus either or both of the added parts, which are printed in smaller notation.
(c) Unison, with or without soprano 'descant' in Verse 3.
(d) S.A.T.B. choirs may adapt the rhythm of the lower parts of the harmonies in Verse 1 to fit that of the melody.

Congregations, also, may be supported by the organ/pianoforte setting as in Verse 1. However, if guitar backing is preferred, please note that when alternative chords are given the upper one synchronizes with it whereas some of the easier chords do not. Nevertheless these options may be helpful when the music is accompanied by a casio-keyboard, for instance. In this case, chords in brackets may be ignored, the previous chord being continued. Where alternatives are offered, the lower chord is simpler.
